Problem An HP C110 and a DEC Alpha 255/233 were purchased as secondary RITS clients. They have arrived and need to be installed.							
Proposed Solution Install both machines on FDDI in the RITS area (room 1105). See Jack Eisenstein if a location is needed. The items can be gotten from Ken Dorsey or Paula Aiello of EDS. DCE 1.1 core was purchased for these. Suggest loading DCE but not configuring into a cell unless Doug McCartney can provide details on setup. HP: Designate as hostname cle8hp and install HP-UX 10.01. It is believed that the newest versions of other s/w are SoftBench 4.0, C++ 10.01 and C 10.11. If there are newer versions on the media contact Vincent Harris for a decision on which to load. A FDDI card from Interphase was ordered separately and also needs to be installed. DEC: Designate as hostname cle7dec and install Digital UNIX 4.0. Load the newest versions of C and C++. No FUSE was purchased. Note that an IBM RITS client was also received, but will be installed as "cle9ibm" under the Release B development effort (CCR 96-0810) since it will also serve as a development machine.
